To achieve our goal we shall continuously improve our work performance, train our persons, & improve our Quality Management System. Since SSBS is an industry wherein moulder prepares raw material as well as finished products, quality testing is very stringent since it affects the final products. "SSBS" has carry out testing of raw materials, stage wise inspection and on finished products to ensure the quality product</p>																
<p>Brief About the Product: SSBS Sprint Brand PVC bag filter housings provide an economical alternative to stainless steel. SSBS Sprint Brand PVC Bag filter housings systems are designed for high flow rates and high sediment holding capacity. Its range provides filtration solution for a broad variety of fluid applications in the process industry. They are particularly useful for filtering large volumes of high viscosity liquids.</p>	<p>Sizes Available: PVC Bag filter housing system suitable for</p> <table border="1" data-bbox="824 831 1435 1243"> <thead> <tr> <th>S.
